Clarke®

Cleaning Power Since 1916.

DMU 14 & 18 - Everything You Need In a Vacuum.

Quality, value, and reliability.

DMU 14 & 18

- Lightweight handle operation with a soft touch grip.
- Quick release cord hook that holds a full 50 feet of SJT 16 gauge power cord, with hospital grade plug.
- First in filtration, a large 6 liter paper bag and a door lock to insure the bag is installed. Next the pre-fan HEPA, filters the air to 0.3 microns after that the exhaust filter cleans the air of dust from the motor.
- Bag-full electronic sensor indicator tells the operator when to change the bag. Vacuum motor is protected by a thermal overload circuit breaker and only from Clarke – a vacuum by-pass designed to provide cool air to the vacuum motor when required.
- An electronic height sensor tells the operator when the three level brush high adjustment is set correctly. The brush motor is protected from overload by a 10 second overload and automatic reset as well as a thermal breaker.
- Vacuum canister with releasable brush base.
- Onboard tools and telescoping wand with releasable stretch hose. Tools include a crevice nozzle and upholstery brush tool. Soft touch grip are on both the operation handle and the wand handle.
- A two stage vacuum motor provides ample suction power with 75" of waterlift and 110 CFM.
- No tool - easy access to belt & brush roll.
- Day Cleaning? No problem here! Quite at just 68 dBa.
- Non marking cord and furniture guard protection keep marks off the wall and your mind!

For more than 80 years, Clarke® has lead the way in the development of innovative and value oriented carpet care equipment.

Clarke Vac-All, circa 1920's

Reduced weight - only 48 oz. handle weight and 20 lbs over all

Extra long hose provides up to 8 feet of reach with on-board tools

Blocked air inlet cools motor during air flow obstructions

Four stage HEPA filtration with 0.3 micron at 99.79% efficiency

Telescoping Wand

Easy access to all filters and a full bag indicator light simplify filter changes

Filter safe system, the vacuum will not operate with out a bag installed

Large 6 liter, top fill style bag

Powerful 1.5 HP vacuum motor provides 75" lift and 110 CFM

14 or 18 inch cleaning path

Foot operated brush roll setting with electronic indication of overload

Chevron brush roll and strong suction improve edge cleaning performance

Low profile provides access to clean under toe kick areas. Full bumper protects walls from damage

Powerful dual motor design provides superior air flow for improved performance. Very quiet operation at 68db.

On-board crevice and upholstery tools improve detail cleaning productivity. Convenient quick cord release and 50' of 16-3 power cable.

CombiVac 12

Light and maneuverable with a handle weight of just 41 oz. and with the power of a true two motor vacuum.

Easy operation – electronic indication of filter full, brush on, and overload conditions.

Long reach hose and on-board tools make detail cleaning a snap.

Side mount belt keeps belt out of debris path for long life. No-tool access to brush roll and belt allows quick and easy maintenance.

The CombiVac and DMU designs have been Green Label Approved by the Carpet and Rug Institute

DMU Upright Vacuum

KEY FEATURES

- High efficiency 4-stage filtration system
- Easy to use, mobile, light handle weight
- On-board tools and hose add versatility
- Two motor design delivers performance
- Chevron style brush

SPECIFICATIONS

	CombiVac 12	DMU 14	DMU 18
Part Number	03102A	03088A	03090A
Voltage/Frequency	115V 50/60 Hz (230 available)	115V 50/60 Hz	115V 50/60 Hz
Air Flow Volume (CFM) at Motor	110 CFM		
Vacuum Motor	30,000 RPM, 1.3 hp		
Static Water Lift (Hz0)	75" (190.5 cm)		
Brush Motor	150 watt, 0.2 hp	90 watt, 0.12 hp	
Brush Speed	5500 RPM	4300 RPM	
Brush Style	Chevron bristle style		
Brush Adjustment	Foot activated, 3 position		
Belt Position and Type	Side mounted flat belt	Side mounted cogged belt	
Filtration	Four stage, 0.3 microns @99.79	Four stage, HEPA filtration standard	
Filter Bag	6.3 qt. (6 L)		
Decibel Rating (dBA)	68 dBA		
Handle Weight at 31.5"	41 ounces (1.1 kg)	48 ounces (1.3 kg)	
Weight without Cord	16 lbs. (7.3 kg)	20 lbs. (9 kg)	20.5 lbs. (9.3 kg)
Cord Length	40' (12.2 m)	50' (15.2 m) hospital grade plug	
Wheel Size	3" x 1" (7.6 x 2.5 cm)		
Cleaning Width	12" (30.5 cm)	14" (35.6 cm)	18" (45.7 cm)
Dimensions (D x H)	9" x 43" (22.9 x 109.2 cm)	10.5" x 45" (26.7 x 114.3 cm)	
UL/CSA Rated	Not rated	Commercial Rated cULus	
Shipping Weight	19 lbs. (8.6 kg)	23.5 lbs. (10.7 kg)	24.5 lbs. (11.1 kg)
Warranty	1 Year Parts & Labor		

WHAT MAKES IT EASY TO USE?

- Light handle weight
- On-board tools
- Convenient simple to operate controls
- "Toe touch" pile height adjustment
- Tank cover removes to expose entire bag area for easy bag and filter changes and filter cleaning

WHAT ENHANCES PRODUCTIVITY?

- No tool access to brush, belt, and filters
- Long power cable and hose increase reach
- Top loading bag design for maximum air flow and efficient debris recovery
- Low profile easily reaches under furniture
- Large 6 liter bag provides more time between changes

WHAT ADDS TO ITS DURABILITY?

- Vacuum motor protected against thermal overload
- Vacuum will not operate with out filter bag installed - protects vacuum motor and internal components
- Indicator light alerts operator of clogs, full bag, and brush setting conditions - removes guess work/error
